RELEVANT PROJECT EXPERIENCE

Project #1 (HCL Technologies Ltd.)

Project Name : SCPay_SCB (Nov 2021-Till Now)
Client Name : Standard Chartered Bank
Role : Test Lead
Tools Used : Java, Selenium WebDriver, BDD cucumber framework, Maven, Jenkins, Oracle SQL Developer & Git.

Description: Standard Chartered Bank is a British multinational banking and financial services company headquartered in London, England. It operates a network of more than 1,200 branches and outlets (including subsidiaries, associates and joint ventures) across more than 70 countries and employs around 87,000 people. It is a universal bank with operations in consumer, corporate and institutional banking, and treasury services. Despite its UK base, it does not conduct retail banking in the UK, and around 90% of its profits come from Asia, Africa and the Middle East.

Role and Responsibilities:

- Analyzing and Understanding user stories and acceptance criteria.
- Designed and executed Test Cases as per System Requirements and User Stories.
- Identifying the test scenarios that need to be automated.
- Developed test scripts using BDD cucumber framework.
- Involved in test scripts review and debugging and modification of existing scripts.
- Running batch execution and sending status report to higher management.
- Verify the Automated test Result, and Logging the Defect in JIRA.
- Triggering and Monitoring Job from Jenkins.
- Actively participate in Daily Scrum call, Sprint planning, Sprint review and Retrospective.

Project #2 (Wipro Limited)

Project Name : Huawei Crowd Test (Jul 2020-Nov 2021)
Client Name : Huawei Technologies
Role : Automation Test Engineer
Tools Used : Huawei Apps (AppGallery, GameCenter, Reader, Themes, Browse), Java, Selenium, Appium, DTS, GitHub

Description: Huawei Apps (AppGallery, GameCenter, Reader, Theme, Browser, Music, Video, and PetalSearch) are pre-installed apps in Huawei phone.

We can use AppGallery to search, download, manage, and share mobile apps. All kinds of useful and fun apps are available for download through AppGallery. GameCenter creates a one-stop game service platform and unique experience for users. Users can get access to the pre-order games, new games, and popular games. Huawei Books app is an eBook reader where we can browse, purchase and download eBooks or even import e-pub books and pdf. Huawei Themes app offers personalized themes, text styles, and wallpapers. Huawei Browser is a dedicated app for Internet browsing, convenient searching, and privacy protection for phone and tablet users.

Role and Responsibilities:

- Gathered requirements documents such as business requirements, design document and other related documents.

- Designed Test Scenarios & Test Cases and executed test cases.
- Involved in identifying the E2E scenario & creating the Reusable methods.
- Developed the Automation Test Scripts in Selenium WebDriver for mobile testing in Android device with the help of Appium.
- Involved in test scripts review and debugging and modification of existing scripts.
- Verify the Automated test Result, and Logging the Defect in DTS.
- Documenting the automation process & coordinating with the teams on a regular basis.
- Actively participate in Daily Scrum call, Sprint planning, Sprint review and Retrospective.

Project #3 (Cognizant Technology Solutions India Pvt. Ltd.)

Project Name : BWW Altametrics Functional & Automation Testing (Jul 2019-Jun 2020)
 Client Name : Inspire Brands
 Role : Senior Test Engineer
 Tools Used : eRestaurant(Altametrics), Altametrics Inventory App, Altametrics Zip Schedule App, Java, Selenium, Appium, Visual Studio TFS, Maven, Docker and GitHub.

Description: The E-Restaurant application by Altametrics will be one component of a broadening BWW back of office operations. E-restaurant is a web based enterprise solutions to restaurant industries. The web-based software offers food cost and inventory control, labor cost and workforce management, supply chain and e-commerce.
